

Personal Information

Name: Andreas Stephanus Louw
Date of birth: 17/05/1996
Nationality: South African
Telephone number: 073 633 7926
E-mail: andreaslouw@gmail.com
Academic Qualifications: National Senior Certificate
Languages: Afrikaans (Home language)
Engels (Second language)

About myself

I am currently a 3rd year BSc IT student specialising in Software development at the University of Pretoria. I started studying Civil engineering in 2015, also at the University of Pretoria, after the first semester I found I did not have a passion for engineering and moved to BSc IT (started in 2016). I changed course because. I have been interested in computers, IT and electronics since primary school, where we had computer classes and I built simple electrical circuits for myself. I started programming in high school where I found it intriguing that virtually any problem can be solved with a software program.

I see myself as honest, hardworking, determined and empathetic.

Education

Tertiary: **Universiteit van Pretoria**
(2015 – Current) **2016 – Current:** BSc IT (Software Development)
2015: First year in Civil Engineering

High school: **Hoërskool Menlopark**
